Congratulations, you have solved the level!

Name: ignore
Level: 7
Difficulty: **

The text editor 'vim' creates files ending in `.swp` (swap files) for all files that are currently open.  We don't want th
em creeping into the repository.  Make this repository ignore those swap files which are ending in `.swp`.

jupyter-41709096@l-jupyterhub:~/git-hug/git_hug/git_hug$ vim.gitignore
vim.gitignore: command not found
jupyter-41709096@l-jupyterhub:~/git-hug/git_hug/git_hug$ githug
*******************************************************************************
*                                    Githug                                   *
*******************************************************************************
Sorry, this solution is not quite right!

Name: ignore
